When we consider that ethics is the systematic study of right and wrong, we should certainly believe that this study is appropriate for a business context. In this conversation, we will be talking about business ethics from several perspectives including: value, human rights, quality, efficiency, customer relationships, international business, consequences of unethical behavior, and the social value of corporations. **CAM Sunday Peanut Butter & Jam**

#### Chalice Table/Greeter

Following is the roster for decorating the chalice table and greeting members and guests. If you cannot participate on the Sunday listed, please contact Shari Gore, 367-3142

Sept. 6 Galland Family	Sept. 13 Jackson Family
Sept. 20 Kobe Family	Sept. 27 Lentner Family

As all of you know, the chalice table decorations are rotated among the member families according to schedule. Shari Gore has been one of our unsung heroines in managing this and decorating the table herself when the assigned family is unable to do it.

The appearance of the table reflects the care and attention that is expended by the participating families. However, on a few occasions, the decorations have been moved from the table and other things substituted before the service. This is, of course, disappointing to those on the schedule. So please, contact Shari before changing anything on the chalice table or changing the schedule. The schedule can be flexible, but the contributions of the people on the schedule must be respected. Many thanks for your understanding. *June Hartley*
